Positive: Cleanliness, Professionalism, Punctuality, Quality, Value

Toni is hands down one of the best piercers in London. Her skill, expertise and professionalism is of the upmost. I was meant to change my nose piercing a while ago, but I've been really busy however, Toni is the only person I trust with my nose and so that's why I went back to her and only her 🍷.

Excellent place in general. All of the staff are really welcoming and just good vibes. Definitely recommend this place for piercings and tattoos 🍷👍

Positive: Cleanliness, Professionalism, Punctuality

Incredibly professional studio. I walked in hoping on a whim I could get a piercing and boy they didn't disappoint. Everyone I spoke to was very accomodating and helped me with my query, all staff were warm and welcoming so made me feel very at ease. Toni (hope I have the name right) did my piercing and was incredible! So knowledgeable and made the process so easy. Thank you I'll definitely be returning!

Had my nipples re-pierced with Toni. Very professional and reassuring. Excellent after care advice. Already on day 3 they feel and look a lot better to what they did from my previous piercer. She reassured and encouraged me to come back with any concerns may come up at all in the future- completely trust the service here. Thank you.

I had a great experience getting my lobes and helix pierced yesterday, the piercer (sorry didn't catch her name!! She was lovely) made the whole process so easy, quick and comfortable. Will definitely be returning to Ink'd later this year for more piercings :-)

Positive: Professionalism

I popped in to ask a Q regarding a piercing I already had (I did not get my piercing here and had already popped into another local shop - nowhere near as helpful) I was taken to the back by Toni who not only answered my enquiry but checked it, cleaned it and even helped to correct it. She told me to pop back in 2 weeks. I will be using only this place from now on! So helpful!!!
